Press Release 12/2015

**JLT Mobile Computers Recognized Among Top 100
Food Logistics IT Providers**

*High reliability in cold, humid and other challenging food logistics environments
combined with leading computing performance secure JLT spot on 2015 FL100+ list*

Tempe, Ariz., 18 December 2015 * * * **JLT Mobile Computers**, a leading developer and manufacturer of reliable computers for demanding environments, has been recognized by *Food Logistics* magazine as one of the top 100 technology providers to the global food and beverage industry.

For more than a decade, the editors of *Food Logistics* have profiled software and technology companies that help food and beverage manufacturers, food service distributors and grocery retailers attain their business goals. The FL100+ list is comprised of equipment and technology

companies, as well as software providers, whose products and services play a significant role in food and beverage supply chains.

Designed from the ground-up to withstand the harshest of environments, JLT Mobile Computers' products minimize expansive downtime, are condensation proof and freezer rated, can be washed down for disinfection, and come with full Windows OS support for integration into corporate ERP system such as SAP.

JLT's high-reliability, high-performance logistics computers, which include the popular [VERSO+ 10 series](#) (*pictured above*) and the next-generation [JLT1214P](#), are enabling supply chain companies across the world to reliably manage business-critical information in tough environments. The key challenge is to trace goods from source to consumer, with the objective to getting the right goods to the right recipient at the right time at the best price. JLT provides the most rugged, highest-performing reliable PCs on the market to meet the challenges of the food and beverage industry with the best possible total cost of ownership (TCO).

Support of the latest mobile connectivity solutions gives customers across the global food supply chain easy and immediate access to the best wireless WAN, LAN and Bluetooth performance in the rugged space.

"We differentiate ourselves by providing the market's best ruggedness, reliability and performance – attributes that are essential for IT solutions used in food handling," comments JLT CEO Per Holmberg. "With design, manufacturing and service in-house, we can quickly adapt our offerings to our customers' specific demands and requirements. Customers around the world chose JLT "Because it Works!"

To learn more about JLT and their solutions for the food supply chain, please go to the JLT website at www.jltmobile.com or visit the company at Booth 2525 during [MODEX](#) in Atlanta from 4-7 April 2016.

About JLT Mobile Computers

JLT Mobile Computers is a leading developer of rugged mobile computers for demanding environments. These PC-type computers are developed and manufactured in Sweden for professional use and are characterized by very high reliability in the face of moisture, dust, vibration, electromagnetic fields or extreme temperature – reliability that is required for use in areas such as transportation, warehousing / logistics, forestry, mining, automation, military and rescue vehicles. JLT operates globally with offices in Sweden and the US, complemented by a network of sales partners that provide complete solutions and local support. JLT has delivered over 90,000 PCs since its inception and the company's turnover in 2014 was SEK 72 million. The headquarters in Växjö, Sweden houses the development, service and administration departments. The company was founded in 1994 and since 2002 has been listed on the NASDAQ OMX, First North, under the symbol JLT by Remium as Certified Advisor.
